Business Analytics Graduate Certificate

**Description**

The Business Analytics Graduate Certificate equips working professionals with methodologies and analytical tools needed to analyze data available in modern organizations. Participants will learn to use advanced spreadsheet functionality, dashboard visualization tools, and report generators for descriptive analytics to understand and report on historical data. In addition, participants will use data mining and other advanced methodologies for predictive and prescriptive analytics to understand future trends.

**Curriculum**

The certificate requires 8 credits of study, comprised of the following four courses.

Leadership and Managerial Skills Graduate Certificate

**Description**

The Leadership and Managerial Skills Graduate Certificate is designed to help participants improve their skills relating to decision making, communicating, negotiating, working in teams, and leading. In addition to learning theoretical aspects of these areas, the courses in the certificate also provide opportunities for students to improve their “soft skills” relating to working with other people and organizations.

**Curriculum**

The certificate requires 8 credits of study, comprised of the following four courses.
Digital Marketing and Innovation Graduate Certificate

Description
The Digital Marketing and Innovation Graduate Certificate advances participants’ knowledge and skill in areas such as marketing strategy, communication, and customer intelligence. Students learn about such topics as new product development, strategy analysis, search engine optimization, marketing analytics, integrated marketing communications, various media vehicles, and much more.

Curriculum
The certificate requires 8 credits of study, comprised of the following four courses.
